الباحث

Wars of Gulf and its effect on Iraqi environment

The importance of this study lies in the tragedy which Iraq hard impacts of the successive wars which Iraq passed during a short time. Many disasters resulted from that wars, One of them is the subject of Iraqi environment and what had come over it from the international prohibited weapons by many sides of fighters, and the disastrous thing which had hit the Iraqi environment was the using of uranium weapons by U.S.A and its Allies during 1991 and 2003 wars.

This study aims to explain the bad results of the aggression on Iraq and Iraqi People, and moral damages which caused by the creators whom violated international laws.

This study divided into an introduction and three chapters and a conclusion. The first chapter studied the wars of Gulf through three themes, the first was about the using of power during the era of the League Of Nations, and the second dealt with the development of the notion of power during the era of United Nations, and the third explained the wars which Iraq had entered, the Iraqi – Iranian war, Gulf second war and Gulf third war. The second chapter

discussed the comprehensive destruction weapons and its environmental effect in wars of gulf according on two themes, the first was about the kinds of weapons which causes the environmental contamination, and the second was about the environmental contamination. The third chapter explained the contamination and its effect on the Iraqi environment through three themes, the first was about the Iraqi environment, its air, earth and water, The second was about the using of uranium in Iraq and the attitude of the international laws from it, and the third was about the impacts of the using of uranium in Iraq and its effect on man and animal, and at last the conclusion which in it the researcher fixed the results of this study.

The Thesis Concluded to:

- 1- That keep peace should be from work and spacial council and assambly on league of Natil Era.
- 2- That gave United Nation Pact On Pranciplitly to security of council.
